THE ROLE AND THE SPECIAL IMPORTANCE OF ENGLISH IN PROFESSIONAL ACTIVITY OF THE POLICE

One of the most popular professions among the young people of our country is the profession of a lawyer. It is very interesting and important. Our country is creating a law-governed state, and lawyers play a very significant role in this process. They are necessary for regulating social relations in the state.

In Ukraine, training lawyers is the task of the law establishments such as Law Academies, Law Institutes, and law

faculties of several higher institutions. Graduates of different law schools can work in the organs of the Prosecutor's Office, in different courts, in notary offices, in legal advice offices, in organs of tax inspection, as well as in different firms, companies, banks, enterprises, etc . They can work as advocates, judges, notaries, investigators, prosecutors, legal advisors.

Regarding law enforcement, in my opinion, are those who must first have English as police officers around the clock serving society by ensuring the protection of human rights, combating crime, maintaining public order and public safety. Police intended to protect the life, health, rights and freedoms of citizens of Ukraine, foreign citizens, persons without citizenship; for combating crime, public safety, property and ensure public safety.

Police are citizen of Ukraine who was sworn police officer, serving in positions in which the police and given the special rank of police. Police communicate with different segments of the population, and Ukrainian citizens of foreign countries. In order to avoid difficulties in the language barrier between law enforcement and the foreigner, every policeman should have a sufficient level of English. Also, operators service 102 can properly understand and to help non-English speaking person who is no less important.

As for me, to advance to conduct English language courses with police officers, and at least annually certified data entities. Knowing English police officer will not only provide administrative services to the citizens of Ukraine and foreigners. This will make it possible to put Ukraine at the level of the leading EU countries, which is valued respect for the traditions, customs and language of communication foreigners and in no time, not inhibited their rights.
