The author focuses on the fact that the idea of the unity of Ukrainian lands – reunion Ukraine – reaches in ancient times and originates from the union of ancient lands around the princely throne in Kiev. Dissociation of land, foreign domination in Galicia and Transcarpathia, on the Right Bank and Left Bank, the loss of religious unity of the people, social and national oppression gave rise a wide variety of ideas that had called for a struggle against the oppressors, for the unity of Ukrainian lands, the unity of the people, their religion and culture.

It is proved that the concept of solidarity and unity is similarly in the meanings. Justice is not realized in a society whose members do not recognize themselves as debtor of society. The idea of social justice contributes to the construction of country which is united.
